

Fuller tables, less waste, guests who return.

AI automation, profit intelligence and a complete restaurant platform, connected to the POS, delivery apps and WhatsApp you already use.

SOUND FAMILIAR?

Bookings taken by hand

Calls and DMs answered after service, or missed.

Reviews left unanswered

Google and delivery-app reviews pile up.

Prep guessed from memory

Over-prep becomes waste; under-prep, sold-outs.

Hidden profit leaks

Supplier price rises, waste and discounts go unseen.

Delivery apps eat margin

High sales, low earnings after commissions.

Guests quietly stop coming

No one notices until revenue dips.
